David Griffith – Business Advisor

With over 33 years of experience managing high technology companies and having managed both software and hardware businesses, Griffith has prepared private companies for public offerings, raised capital for startups and engineered mergers, acquisitions, and turnarounds.

Griffith previously served as president and CEO of Azstec until October 2017. He also served as president and CEO of three startup companies: Orbital Traction, a high efficiency transmission manufacturer; StarDrive Solutions, a video software and solutions provider; and Tandberg Data Inc., a data storage and solutions provider. Two of these companies had successful exits and the other has continuing operations. Additionally Griffith was Vice President of Operations for Qualstar Corp, a public robotics manufacturer where he was responsible for engineering and operations including customer service. At Tandberg Griffith built seventy-five-million dollar multi-channel sales from the ground up with service and logistics operations. Griffith has a BSME from California Polytechnic University
